

CAREER LADDER ASSESSMENT

18TH MARCH 2020

SPEAKER: PRABHAKER REDDY VANAM

AGENDA

- Profile Summary
- Work Experience
- Role & Responsibility
- Contributions and Achievements
- People Development
- Personal Development Plan

PROFILE SUMMARY

About me:

Title: Senior Analyst IT Solutions
Experience: 15 Years (~9 years in ADNOC Onshore)
Interests: Music, Farming and Teaching

Education

- Bachelor of Science, From Osmania UNI, India (2001)
- Masters in Computer Science, From Osmania UNI, India (2004)

Certifications

- Enterprise Content Management
- Content Management Server Programming
- IBM Applied Data Science (2019)
- IBM Applied AI (2020)

Specializations

- Enterprise Content Management (Documentum suite, Captiva Capture, SharePoint)
- Oracle Aconex – Project Collaboration

Soft Skills

- Communication Skills
- Problem Solving Skills
- Collaboration Skills

WORK EXPERIENCE

Verinon Technology Solutions, India (Software Eng./Consultant)

- Java, Web Development, Content Management, eRoom
- International Experience - Singapore, Malaysia, Thailand, Turkey, USA, Saudi, Bahrain

2005

eSolutions - MDS, Abu Dhabi (Documentum Consultant)

- Damanhealth
- FAB(FGB)
- Dubai Metro
- ADNOC Onshore

2009

Current - ADNOC Onshore (Senior Analyst, IT Solutions)

- eWellFile, Engineering EDMS, eTransmittal, Maximo EDMS, eTDF etc.
- Digitization solutions

2011

ROLE & RESPONSIBILITY

Business Analysis

Project Management

Solution Design and Development

Ensure Standards Adherence

People Development

Vendor Management

Close Interaction with various IT Department

CONTRIBUTIONS AND ACHIEVEMENTS

Engineering EDMS,
eTransmittal

eWellFile / Technical
Library

Finance EDMS, Maximo
Integration

Scanning Solutions

Aconex Implementation

Business Value

- Enabled Field Operations to quickly access right version of As-Built Drawings (P&ID, PLOT PLANS etc.)
- GIS-EDMS Integration (Geo Technical Report, SSSP)
- Reduce variations and project delays, better review quality
- Approved deliverable are automatically available in EDMS

Role

- Solution Design and Development

Challenges and Risks

- Migration of 3TB from Documentum v5.3 to v6.5
- Common Brava! viewer for both the EDMS and eTransmittal

Achievements

- Common repository for EDMS and eTransmittal
- **80** Projects are live and using the system (60-EPC, 20-MASTER)
- **125,000+** documents are reviewed using eTransmittal system

CONTRIBUTIONS AND ACHIEVEMENTS

Engineering EDMS,
eTransmittal

eWellFile / Technical
Library

Finance EDMS, Maximo
Integration

Scanning Solutions

Aconex Implementation

Business Value

- Centralized Well File Repository and easily accessible to Drilling team, Asset teams, ADNOC and Shareholders

Role

- Solution Design and Development

Challenges and Risks

- Digitize hardcopy of the WellFile document from different locations
- Auto Classifying the documents
- Training national team to do the digitization

Achievements

- Digitized **5 million** pages with the help of UAE Nationals
- Centralized WellFile documents and Technical library for easy access by different stakeholders
- Integrations with GIS, DWS & eWDP, EXPRIS (PROSOURCE)

CONTRIBUTIONS AND ACHIEVEMENTS

Engineering EDMS,
eTransmittal

eWellFile / Technical
Library

Finance EDMS, Maximo
Integration

Scanning Solutions

Aconex Implementation

Business Value

- Faster and more accurate invoice processing
- Maintenance Procedures controlled with version control
- Automatic de-duplication of documents
- Controlled access to awarded contracts

Role

- Solution Design and Development

Challenges and Risks

- Digitize hardcopy **1300** Awarded Contracts document
- Integration with Maximo database

Achievements

- Invoice Auto registration in the Maximo
- Digitized **1300** awarded contracts the with help of National team
- Simplified Invoice/contracts indexing by Maximo integration

CONTRIBUTIONS AND ACHIEVEMENTS

Engineering EDMS,
eTransmittal

eWellFile / Technical
Library

Finance EDMS, Maximo
Integration

Scanning Solutions

Aconex Implementation

Business Value

- Documents are OCR enabled, PDF files are full text searchable
- Clear Office Space

Role

- Implementation/Development
- Training National/digitization Team
- Supervising the digitization team

Challenges and Risks

- Ad-hack scanning requirement from different department (Procurement/Finance/Engineering/Well File & Technical Library/Technical Center/ITD)

Achievements

- Clear Office Space by Digitizing FCD Archival, Contracts, WellFiles and Tender documents
- Improved HSE environment
- Reducing operational cost
- ~**6 million** pages digitized by the team

CONTRIBUTIONS AND ACHIEVEMENTS

Engineering EDMS,
eTransmittal

eWellFile / Technical
Library

Finance EDMS, Maximo
Integration

Scanning Solutions

Aconex Implementation

Business Value

- Business Process Automation
- Project collaboration solution
- Digitally connects all stakeholders
- Real-time visibility

Role

- Implementation/Development
- Integrations with EDMS application
- Dashboard and Reports
- Focal point from ADNOC Onshore

Challenges and Risks

- Data on cloud (not in our EDMS)
- Standard solution to all client – no client specific enhancements possible

Achievements

- MASTER Project Live
- In-House Implementation In Progress
- EPC – In Progress
- Saved cost 450K AED for 2020

UAE NATIONALS DEVELOPMENT

- Training young Nationals to adapt Documentum/Captiva Technology as part of their career development.
- Involving team to take part in troubleshooting issues during real incidents & making sure they are capable to handle without dependency.
- Currently grooming team on Managing projects related to (ADNOC HQ projects, Aconex, Operating Manuals etc.)
- As a future plan, I want to continue contributing in young talent development and guidance in career enhancement. Example: IT Academy, Technical Courses, Data science, Share Best practices. etc.

ADDED VALUE

ALIGNED TO ADNOC KPI

HSE & AI

- Improve on site Safety with timely availability of **As-built Data** for smooth operation of facilities (Maintenance, Operations, control rooms etc.). SDS Portal for Chemical Safety Data Sheets
- Safeguarding company Assets and Data (EDMS DR System)

People

- Helps **engineers** to manage associated information more efficiently
- Helps young **UAE Nationals** with organizational learning

Performance

- Delivering of add-hoc requests (eWellFile & Tech Library, Notifications to DM & IO&E)
- Closing Audit findings & Security Assessments
- Enhancing the User Experience

Profitability

- Overall, Contribute to **CAPEX/ OPEX reduction**

Efficiency

- **Secured access control** based implementation of system
- Easier, **quicker handovers** to operating teams: no gap after start up

ACHIEVEMENTS

(2018 - TILL DATE)

2018

- **eTDF rollout**
- Master deliverables review thru **eTransmittal**
- Optimized reporting on Convert to MASTER Tool
- BRD for Technical Standards Feedback Management
- POC for Tracking tool for eTransmittal deliverables

2019

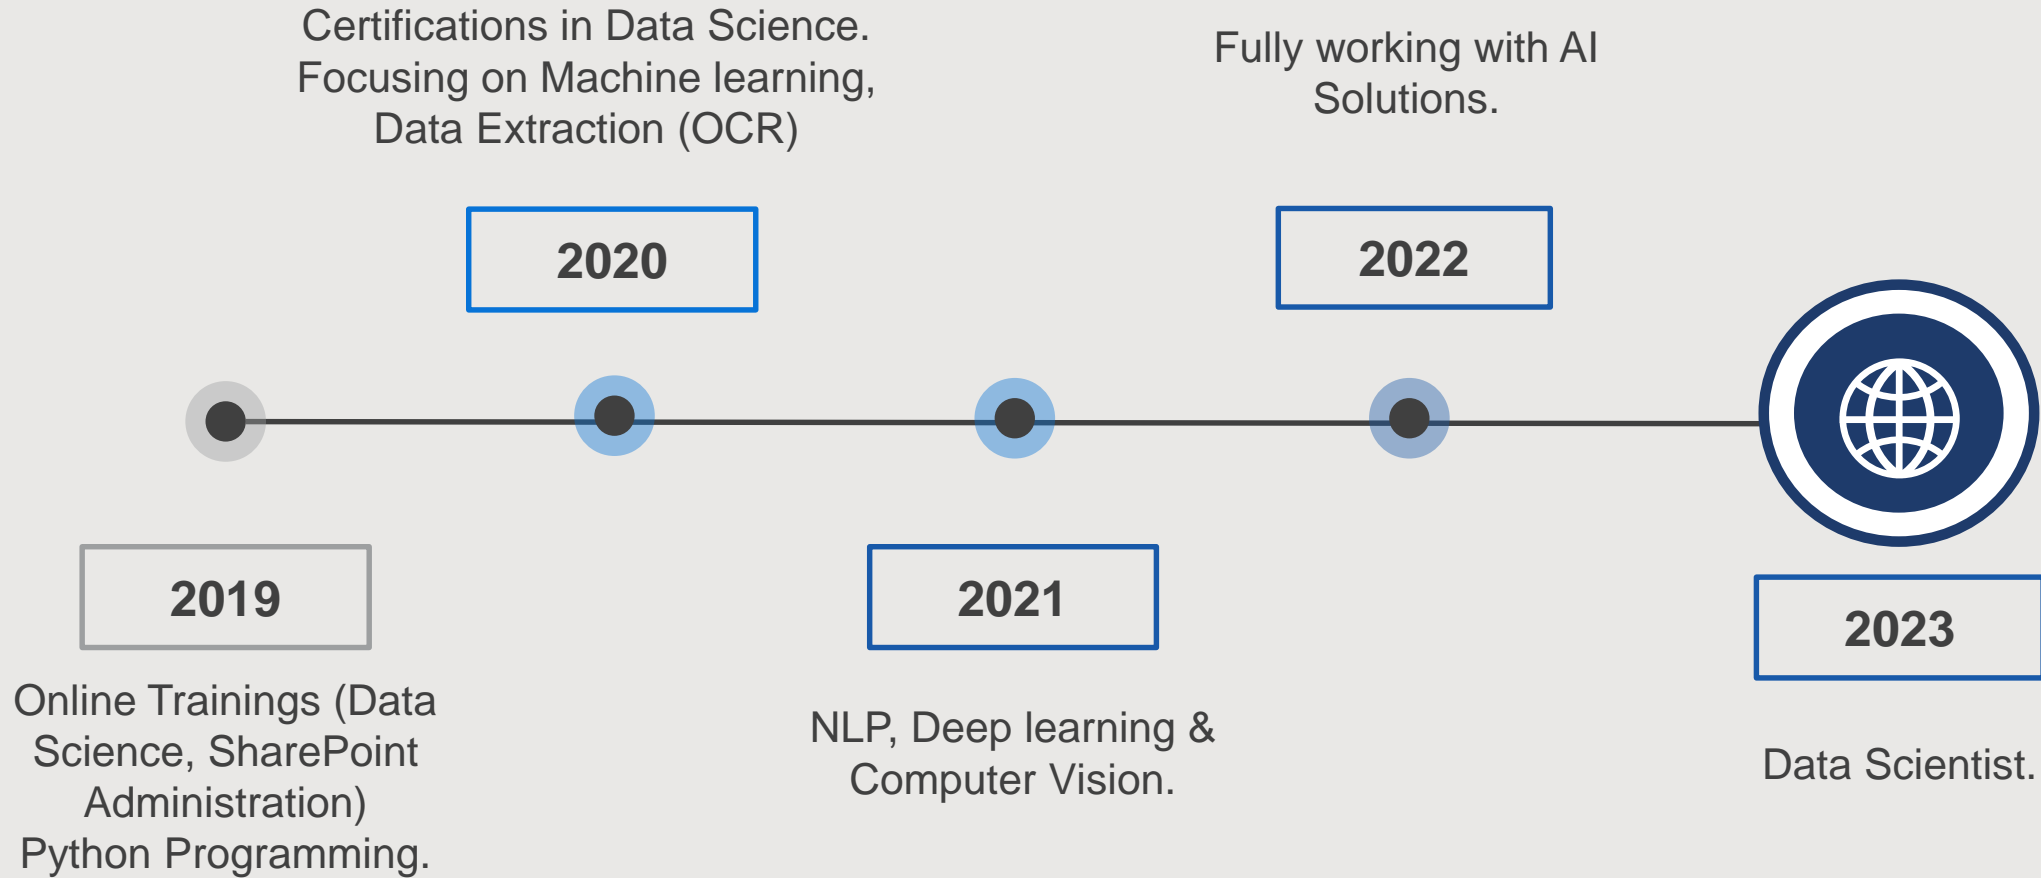

- Certification in Data Science – Certified Applied Data science Professional (from IBM)
- Supported DM/TC(IO&E)/Drilling to achieve their KPIs
- **Operating Manuals** - SharePoint solutions for TC(IO&E)

2020

- Certification in Data Science – Certified Applied AI Professional (from IBM)
- Aconex Implementation @ ADNOC Onshore
- For 2020 saved **AED 450K** – project Cost (23K per Project for ~20 projects). It will be around **2.3m AED** from **2022** every year.

PERSONAL DEVELOPMENT PLAN

THANK YOU

CERTIFICATIONS

APPLIED DATA SCIENCE (IBM)

APPLIED AI (IBM)

ADNOC Onshore

From: Prabhaker Reddy Vanam (ADNOC Onshore - IT) <pvanam@adnoc.ae>

Sent: Thursday, March 05, 2020 11:34 AM

To: Bedoor Saeed Al Mazrouei (ADNOC Onshore - TC (SS&DM)) <bsalmazrouei@adnoc.ae>

Dear Bedoor,

Please find the update on the eWellFile & Technical Library (EOS) enhancements.

1. Titles and Report date extraction from Technical Library (EOS) – **No admin license to extract data**
Currently there are no tools to extract data from legacy EOS system, We used the EOS search results as source data to extract titles and reports using pattern-matching technique with python script.
Script extracted **10,950** reports from **300,000** line of text, which are related to eWellfile Technical Library.
2. Extracted Titles and report dates are Loaded to the Reports in eWellFile
3. Enhanced the Search functionality to search with in Technical Library folder in eWellFile - **Same will be added to eWellFile for ADNOC**
4. Fine-tune search results (indexed large & missing documents)
5. Reclassified 100+ reports, which were scanned as eWellFile document, back in 2015.

With these enhancements, users from ADNOC HQ can find the documents easily without looking into two different systems (EOS and eWellFile)
We will continue monitoring the eWellFile usage to improve user experience.

Regards,

Prabhaker
